NATURE AND NOMENCLATURE OF THE COURSES

In line with the UGC's guidelines, the courses are categorized as Core courses, Elective courses or Ability Enhancement courses:

Core Course. A Core course is a course that has to be compulsorily studied. A student in an undergraduate degree programme with Honors will have to take up 14 core courses, each of 6 credits. In a Regular undergraduate degree programme, a student will need to take up 12 core courses, each again of 6 credits.

Elective Course: An Elective course is to be chosen by the student from a pool of such courses on offer and will essentially be of three types:

Discipline Specific Elective Course: An Elective Course which is offered by the main discipline. The discipline offering a Discipline Specific Elective course may also offer discipline related elective courses that are interdisciplinary in nature. A student enrolled in an undergraduate degree program with Honours will have to earn 24 course credits from Discipline Specific Elective courses. For a student enrolled in a non-Honours undergraduate degree program in Arts, the course credit requirement from Discipline Specific Elective courses will be 24 credits.

Generic Elective Course: A Generic Elective Course is offered by an unrelated discipline and has the objective of broadening the academic experience of a student. A student enrolled in an undergraduate degree program with Honours can acquire 24 course credits from Generic Elective Courses. A Core Course offered in a discipline may be allowed as an Elective to a student from another discipline. This course will be treated under the category of Generic Elective Courses. Generic Elective Courses are not available to students in a non-Honours undergraduate science degree program while other non-Honours undergraduate programmes require enrollees to take up two such courses.

Dissertation/Project: Engaging students in a Project/ Dissertation work, which requires knowledge application and problem solving, is considered to be important in the learning process. All students enrolled in an undergraduate degree program (Honours and non-Honours) will have the option of choosing to undertake Project/Dissertation work for 6 credits in lieu of a 6 credit Discipline Specific Elective course in the fifth semester only.

Ability Enhancement Courses: Ability Enhancement Courses which are to be taken up by students in an undergraduate degree program will be of two types:

Ability Enhancement Compulsory Courses: These 4 credit courses are mandatory for every student enrolled in an undergraduate degree program. A student will have to take up 4 credit course in Environmental Science and a second 4 credit course in English Communication/ MIL Communication.

UG-CBCS CURRICULUM- B.A. ARABIC (REGULAR) 2019

Skill Enhancement Courses: Skill Enhancement Courses will be value-based or skill based and there will be a pool of courses on offer. A student enrolled in an undergraduate degree program with Honours will have to take up a minimum of two SEC courses of 4 credits each as part of the program requirement. For students enrolled in non-Honours undergraduate degree programs the credit requirement from Skill Enhancement Courses will be 16 credits. It is desirable that the university will prepare Skill Enhancement Courses for various disciplines from the list of SEC provided by the UGC template. However colleges are free to develop their own SECs independently which must have prior approval of the Academic Council.

For the purpose of computation of work-load the following mechanism is to be adopted:

- 1 Credit = 1 Theory period of one hour duration
- 1 Credit = 1 Tutorial period of one hour duration
- 1 Credit = 1 Practical period of two hour duration

NATURE AND NOMENCLATURE OF THE COURSES

In line with the UGC's guidelines, the courses are categorized as Core courses, Elective courses or Ability Enhancement courses:

Core Course. A Core course is a course that has to be compulsorily studied. A student in an undergraduate degree programme with Honors will have to take up 14 core courses, each of 6 credits. In a Regular undergraduate degree programme a student will need to take up 12 core courses, each again of 6 credits.

Elective Course: An Elective course is to be chosen by the student from a pool of such courses on offer and will essentially be of three types:

Discipline Specific Elective Course: An Elective Course which is offered by the main discipline. The discipline offering a Discipline Specific Elective course may also offer discipline related elective courses that are interdisciplinary in nature. A student enrolled in an undergraduate degree program with Honours will have to earn 24 course credits from Discipline Specific Elective courses. For a student enrolled in a non-Honours undergraduate degree program in Arts, the course credit requirement from Discipline Specific Elective courses will be 24 credits.

Generic Elective Course: A Generic Elective Course is offered by an unrelated discipline and has the objective of broadening the academic experience of a student. A student enrolled in an undergraduate degree program with Honours can acquire 24 course credits from Generic Elective Courses. A Core Course offered in a discipline may be allowed as an Elective to a student from another discipline. This course will be treated under the category of Generic Elective Courses. Generic Elective Courses are not available to students in a non-Honours undergraduate science degree program while other non-Honours undergraduate programmes require enrollees to take up two such courses.

Dissertation/Project: Engaging students in a Project/ Dissertation work, which requires knowledge application and problem solving, is considered to be important in the learning process. All students enrolled in an undergraduate degree program (Honours and non-Honours) will have the option of choosing to undertake Project/Dissertation work for 6 credits in lieu of a 6 credit Discipline Specific Elective course in the fifth semester only.

Ability Enhancement Courses: Ability Enhancement Courses which are to be taken up by students in an undergraduate degree program will be of two types:

Ability Enhancement Compulsory Courses: These 4 credit courses are mandatory for every student enrolled in an undergraduate degree program. A student will have to take up 4 credit course in Environmental Science and a second 4 credit course in English Communication/ MIL Communication.

Skill Enhancement Courses: Skill Enhancement Courses will be value-based or skill based and there will be a pool of courses on offer. A student enrolled in an undergraduate degree program with Honours will have to take up a minimum of two SEC courses of 4 credits each as part of the program requirement. For students enrolled in non-Honours undergraduate degree programs the credit requirement from Skill Enhancement Courses will be 16 credits. It is desirable that the university will prepare Skill Enhancement Courses for various disciplines from the list of SEC provided by the UGC template. However colleges are free to develop their own SECs independently which must have prior approval of the Academic Council.

For the purpose of computation of work-load the following mechanism is to be adopted:

- 1 Credit = 1 Theory period of one hour duration
- 1 Credit = 1 Tutorial period of one hour duration
- 1 Credit = 1 Practical period of two hour duration

Course Structure for B.A. (Hons.) Economics:

There are a total of fourteen economics core courses that students are required to take across six semesters. All the core courses are compulsory. In addition to core courses in economics, a student of B.A. (Hons.) Economics will choose four Discipline Specific Elective (DSE) Courses. The Discipline Specific Elective (DSE) Courses are offered in the fifth and sixth semesters and two such courses will be selected by a student from a set of courses specified for each of these semesters (Groups I and II in the attached table). It is recommended that each college should offer at least three Discipline Specific Elective (DSE) Courses in the fifth and sixth semesters to allow the students some minimal element of choice.

The syllabi for the Discipline Specific Elective (DSE) Courses are provisional and subject to revision.

Contact Hours: Each course has 5 lectures and 1 tutorial (per group) per week. The size of a tutorial group is 8-10 students.

Note on Course Readings: The nature of several of the courses is such that only selected readings can be specified in advance. Reading lists should be updated and topic-wise readings should be specified at regular intervals, ideally on an annual basis.

Eligibility for Admission into BA Hons Economics: Given the quantitative requirements of the program, only students who have passed mathematics at the Class XII level are eligible for admission. [However not to deprive student who are currently at Higher Secondary level without Mathematics as one of the subjects and who have been considering opting for Economics (Major/Honours) course this eligibility criterion will be in force only from the third year of implementation of this syllabus. This was unanimously agreed upon in the meeting of the Under-Graduate Committee of Courses and Studies in Economics of Gauhati University held on 25/5/18]

Paper 2: ENG-HC-1026 European Classical Literature

Credits: 5 (Theory) + 1 (Tutorial)

Marks: 80 (End-Semester Examination) + 20 (Internal Assessment)

Classical writing in Europe saw the emergence of traditions that cut across many genres, which included poetry, theatre, and general discourses. While the Aristotelian focus on the examination of the essentials of poetry extended to incorporate discussions on epic and drama, subsequent writers such as Horace drew attention to the purposefulness of the creative exercise. In the theatre the widely divergent compositions by Sophocles and Plautus respectively show the consolidation of a rich cultural discourse. It is this enriching literary tradition that this paper seeks to familiarize with through the study of representative texts belonging to the Classical Period.

Texts:

- Homer: *The Odyssey*, tr. E.V. Rieu (Harmondsworth: Penguin, 1985) Book I
- Sophocles: *Oedipus the King*, tr. Robert Fagles in *Sophocles: The Three Theban Plays* (Harmondsworth: Penguin, 1984).
- Plautus: *Pot of Gold*, tr. E.F. Watling (Harmondsworth: Penguin, 1965).

Semester III

Paper 5: ENG-HC-3016 History of English Literature and Forms

Credits: 5 (Theory) +1 (Tutorial)

Marks: 80 (End-Semester Examination) + 20 (Internal Assessment)

This paper introduces students to the History of English Literature and the major literary forms. It adopts a chronological approach to the study of poetry, drama, fiction and non-fictional prose, showing the development of each form as it moves through the various periods of English literature and its expansion into global English writing. While authors have been named in some instances as representative of forms and periods, in other cases, especially in the 20th and 21st centuries, the expansion of the field has meant that individual authors are too numerous to name. Hence certain directions and areas of study have been indicated.

Questions in this paper should be linked to the manner in which the different Units have been structured with focus on forms and periods and the authors named used as examples. The sections on 20th and 21st century developments are too complex and widespread to have individual authors named – this may be read and evaluated in terms of a general picture and authors of choice.

Paper 4: ENG-HE-5046 Nineteenth Century European Realism

Credits: 5 (Theory) + 1 (Tutorial)

Marks: 80 (End-Semester Examination) + 20 (Internal Assessment)

The insistence on literary representation whose objective was to ‘mirror’ reality gained ground in nineteenth-century Europe across the different cultural spaces of the Continent. That is why varieties of realism surfaced in the literary traditions which were as culturally divergent as Russia and Spain. This paper is designed to provide an interesting sampling of the traditions that contributed to the growth and consolidation of European Realism in the nineteenth century. Study of these texts will also facilitate the understanding of the gradual movement towards modernism in the twentieth century which was, in many ways, both a response and a reaction to the major tendencies of European Realism.

Paper 1: ENG-HG-1016 Individual and Society

Credits: 5 (Theory) + 1 (Tutorial)

Marks: 80 (End-Semester Examination) + 20 (Internal Assessment)

Credits: 5 (Theory) + 1 (Tutorial) =6

Marks: 100 (80+20)

This paper examines a key aspect of literary composition – the figure of the individual in her interactions with the society in which she lives. Literary works represent these elements in different ways. The individual appears as character, narrator, writer, while the society features as milieu in which individuals function, and as that which creates the conditions for emergence of the literary text. Individuals live in harmony or in conflict with society. Texts in this paper, selected from the many literatures in English being produced today, will provide the opportunity to study all of these aspects. Students will also note the ways in which individual-society relationships and their representation change in different historical periods of literature. Each text in this paper will be studied against its social and cultural milieu.

Credits: 5 (Theory) + 1 (Tutorial) =6

Marks: 100 (80+20)

In almost every period of literary history works of non-fictional prose, fiction, poetry and drama have co-existed. Also, literary cross-currents have helped shape these literary forms in a way that demonstrates their affinities as well as differences. It's important to study works with due attention to their 'formal' aspects so that what it is truly distinctive about the literary type, form, or genre to which they belong is not missed. At the same time it's necessary to contextualize the study so that the evolutionary or historical dimension of the literary works, their growth and transformation over the years is not lost sight of. This paper will acquaint the students with different literary forms, with one part addressing formal concerns including definitions, while the other part will involve study of actual texts which exemplify a particular literary form or genre, and which will include some consideration of the contexts of their production.

Individual and Society

Credits: 5 (Theory) + 1 (Tutorial) =6

Marks: 100 (80+20)

This paper examines a key aspect of literary composition – the figure of the individual in her interactions with the society in which she lives. Literary works represent these elements in different ways. Students will also note the ways in which individual-society relationships and their representation change in different historical periods of literature. Each text in this paper will be studied against its social and cultural milieu.

POL HC 1026 Constitutional Government and Democracy in India

Course objective: This course acquaints students with the constitutional design of state structures and institutions, and their actual working overtime. POL HC 2016 Political Theory-Concepts and Debates

Course Objective: This course is divided into two sections. Section A helps the student familiarize with the basic normative concepts of political theory. Each concept is related to a crucial political issue that requires analysis with the aid of our conceptual understanding. This exercise is designed to encourage critical and reflective analysis and interpretation of social practices through the relevant conceptual toolkit. Section B introduces the students to the important debates in the subject. These debates prompt us to consider that there is no settled way of understanding concepts and that in the light of new insights and challenges, besides newer ways of perceiving and interpreting the world around us, we inaugurate new modes of political debates.

Course outcomes:

After reading the course, the students would

- Understand the various concepts in political theory and appreciate how they can be helpful to analyse crucial political issues
- Understand the significance of debates in political theory in exploring multiple perspectives to concepts, ideas and issues.
- Appreciate how these concepts and debates enrich political life and issues surrounding it.

- Understand the working of major political institutions in India
- Understand the major debates in Indian politics along the axes of caste, gender, region and religion
- Understand the changing nature of the Indian state and the contradictory dynamics of modern state power
